Expected Salary 7

I based my expected salary on research from Glassdoor, which reports a base salary range of $55K–$78K per year for 3D animators. Flying Bark Studios appears to offer higher total pay, ranging from $67K to $90K, with a median around $80K, though this includes additional compensation. As an entry-level animator, I am aiming for a total salary in the range of $75K–$80K, which equates to approximately $40–$45 per hour.
